

## **Environmental Policy Statement**

Quick Move Waste is a family-owned business, registered in Ireland with a long history of servicing the local community and a track record that confirms a commitment to best practice. This means that you can be rest-assured that all activities are carried out in compliance with all statutory requirements.

- We are committed to carrying out our activities in such a way that will not generate any negative impacts on the environment
  - We support our local authorities and seek to align our business objectives to their waste management plans and the environmental policy and statutory objectives
  - We strive to prevent or minimise the production and harmful nature of waste
  - We comply with all environmental legislation relating to our business and where appropriate seek exceed these requirements.
  - We provide services that support the recovery of waste
  - We provide information to our customers to help them increase their recycling rates
  - We strive to ensure that any waste that cannot be prevented or recovered is safely disposed of
  - We disapprove of any use of unauthorised waste disposal or waste related activities that are conducted without any due authorisation or in significant breach of their authorisation
  - We review our policies and procedures annually to make sure it is up-to-date
  - We provide a copy of our Waste Collection Licence on request
  - We confirm that as the Directors of the company, we wholly support this environmental policy and commit to ensuring all employees, contractors and interested parties are aware of our policy at all times.
-
